**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-29, 31-33 and 45-49, drawn to a method and an apparatus comprising receiving a text string, performing a search of a database of a stored patterns matching characters, classified in class 707, subclass 6.
  - II. Claims 30 and 34-44, drawn to a method and an apparatus comprising a receiving a text string, determining a current state of a state machine and performing a comparison operation in a ternary content addressable memory (TCAM), classified in class 711, subclass 108.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, invention I has separate utility such as a receiving and a performing methods to search a database of a stored patterns matching one or more characters of the text string using a state machine; invention II has a separate utility such as a ternary content addressable memory (TCAM) comprising a first, a second, a third, and a fourth fields to store a current state of a state machine. See MPEP § 806.05(d).

2. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
